

Prescription Drug Claims Audits

Optimize Prescription Drug Claims Payment Processes

Our use of nationally-recognized drug databases, along with internally developed clinical and technical logic, provides unparalleled checks against improper payments and administrative oversights. Centered on our state-of-the-art software auditing solution AUDiT iQ™ and using our extensive years of experience, our prescription drug claims audits include:

- A comparison of 100% of enrollment records to 100% of paid claims.
- Configuration of exact plan designs into AUDiT iQ™ to ensure appropriate adjudication.
- Comprehensive audit categories to examine parameters such as:
 - Excluded and/or limited drug types
 - Prior authorizations
 - Copays
 - Dispensing fees
 - AWP or MAC discounts
 - Rebate guarantees
- Guidance as to the advantages and consequences of recoveries, corrective actions and their potential impact on plan participants.
